

## Endless Open End

I opened my mind, found a beast inside  
I tripped out to hell and I died in the  
Inner space of mine! I've only fucked the truth  
Buried my lost soul - buried it in filth

So you hate it  
Though you loved it  
Though you loved it, ahh  
Though you loved it, ahh

Stoked the fears with fear, lost myself in tears  
Fought but lost the war, all I felt within  
My skull oh it burned, (the) fucking trip it turned  
(into) an endless open end, endless open end!

*Help me like always  
Come into my world*

Oh come to my world

Noone ever knew how trapped I have been  
Darkness killed the kid, killed the rest of sense  
I freaked out on hate - paralyzed by shades  
I still bleed inside, hedonism it kills

Ahh, hedonism kills, hedonism  
Ahh, hedonism kills, hedonism kills

*Help me like always  
Come into my world*

An endless open end

We adore it, the killing, reprogramming  
Of our mind fucked up souls  
It is dying, the bleeding  
Of the perception making us go-o-o-ods

So you loved it, though you hate it  
So you hate it, though you loved it  
Though you loved it, ahh

*Help me like always  
Come into my world*

## Trans[c]ience

Transience is the source, compliance prevails  
Dogmatism, it rules our world - a law  
Revealed by hopelessness, our bigotry accompanies  
All moral, aspiration lead my mind, but

I woke

*Up in another world  
This wrath became so true, oh*

A creature convinced to be the pride  
Of creation, an antic statement so vain, made up  
By weak individuals abnegating contrariness  
We're slaves to arrogance  
I believed but see that

I woke

*Up in another world  
This wrath became so true, oh  
I Got lost in another world  
This heart became untrue*

We're a mental menace – can't obviate acting archaic!

(way to stuck to expand consciousness)

But  
I  
Woke

(way to stuck to expand consciousness)

Up

Woke up in another  
Woke up in another  
Woke up in another

World

## Nemesis

10,000 years until the fall  
We knew it, we face it all  
It is so obvious  
Stalemate is within all progress

We spread the word of Seth  
And act so aimlessly  
Chaos and misrule  
Resolve all shapes of beloved harmony

We're getting closer to the edge  
We're creating wasteland and negate this truth  
Is it worth to live this life, in affluence and in guilt?  
Mentally dead we reach the era of decline

*Another day we see it all  
We lived until we reached the fall  
Blind adoration leads to nowhere*

Nowhere

We're failing wide eyed, so damn wide eyed  
We're a billion severed souls tortured  
By a knowledge which becomes apparent  
We multiply until we decimate  
Nemesis is getting close  
Mayhem achieves the purpose

10,000 years until the fall

*Another day we see it all  
We lived until we reached the fall  
Your eyes lead to nowhere*

*We're a twist of fate achieving the principles  
It makes no difference whether you struggle or not*

Whether you struggle or not  
It makes no difference  
Whether we struggle or not  
Since the appearance of greed we  
Follow the wrong gods!

*(We are leeches)*

*Another day we see it all  
We lived until we reached the fall  
Blind adoration leads to nowhere  
Another day we see it all  
We lived until we reached the fall  
Your eyes lead to nowhere*

It is getting close

## **The Mindscale Inception**

Spell caused by hatred (can't defeat it, can't deny it)  
You beg for more (and dispossess my trust)  
Right now my mind afflicts, my mind afflicts

I'm aware this schism scorns my soul  
My soul cries, my soul

Shattered I remain (and I see no fucking way out)  
Pulseless my mind (faces a querying opponent)  
The time we've shared perished my trust  
You let me suffer - I tempted fate  
I'm feeling condemned!  
No one will hear me  
My mind afflicts, my mind afflicts

I'm aware this schism scorns my soul  
I feel

*The rest of my soul does oppose  
I see so clear, I feel  
The rest of my soul does oppose*

Desperate I complain (but I find no fucking way out)  
Restless my mind fights an old opponent

Ahhhh  
Ahhhh  
Ahhhh  
Ahhhh

*Open your heart and let hope reign despair*

I

*Feel*

*The rest of my soul does oppose*

*I see so clear, I feel*

*The rest of my soul does oppose*

I am getting lost in diremption

Oh this voice

This voice it scorns me

Oh yes it scorns me

Oh it fucking scorns me – scorns me
